Gro Solutions to Relocate Headquarters to Midtown Atlanta

ATLANTA – August 1, 2017 [Gro Solutions](#), a leading provider of digital growth solutions for banks and credit unions, announced it will relocate its headquarters from Johns Creek, Ga. to Midtown Atlanta’s Bank of America Plaza, the tallest building in the Southeastern United States, during the fourth quarter of 2017.

Gro’s move to the 37th floor of Bank of America Plaza better positions the company to engage with the booming Atlanta Fintech community, while accommodating for its projected future growth.

“Midtown Atlanta is a leading global hub for bank-centric Fintech,” said David Eads, Chief Executive Officer of Gro. “We look forward to being an active part of the entrepreneurial and innovative vibe that feeds off the young professionals and university students who live in the area.”

Gro plans to use the new space to host customer and partner visits, in addition to day-to-day collaboration among its team members. The new space will be home to a wide variety of job functions, including management, sales, marketing, development and implementation teams.

“The convenient access to the airport and mass transit will make it easier for customers, partners and staff to reach our office,” said Eads. While headquartered in Atlanta, Gro also has offices in Costa Rica and the United Kingdom.

About Gro Solutions

Founded in 2015, Gro Solutions provides a digital sales platform to drive acquisition growth for banks and credit unions, across all channels of their business. The Gro Sales Platform features innovative and intuitive software solutions designed to optimize both the financial institution and end user experience for digital sales tasks, such as account opening and loan origination.
